

# YOUR MEETINGS CALLED TO ORDER

Combining state-of-the-art, intelligent technology with high-definition video and audio, Callbridge empowers your meetings to high-caliber productivity.

- HD Video Conferencing
- Integrated Premium Dial-ins
- AI Powered Auto Transcript & Smart Summaries
- Audio & Video Recording
- Meetings with up to 100 guests
- Live Video Streaming

## High-Caliber Productivity

Capture meetings flawlessly with Cue™, the AI bot that transcribes your meetings, predicts information you'll be looking for and allows for time-saving archive searching.

## Deep Personalization

Bring your brand to the frontline of the virtual meeting experience with extensive personalization of the user interface, from your logo and color to, styles and renders.

## Absolute Availability

Facilitate important business meetings from any device, from anywhere with high quality video and audio, enabling crisp, clear communications.

## Serious Security

Using cutting-edge virtual security measures like 128 bit encryption and granular privacy controls, Callbridge invites you to convene without fear of intrusion.

# HIGH CALIBRE PRODUCTIVITY

Callbridge acts as your secretary to your meeting, reminding your guests, taking notes, and posting summaries and materials.

## CUE™

### CUE™, ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

- All recorded conferences are automatically transcribed in near real time;
- Topic tags are selected by frequently used terms beyond the spoken natural language;
- Transcription & Topic Tags are prominently displayed within the call summary, creating an easily searchable record of your discussion.

#### SHARING & COLLABORATION

- Screen Sharing
- File Transfer
- Document Present
- Text Chat

#### HOST CONTROLS

- Mute Modes
- Meeting Lock
- Guest Priority Display
- Raise Hand

#### NOTIFICATIONS

- Meeting reminders to all attendees by email;
- SMS reminders to host;
- SMS to host when first guest joins the conference

#### AUTO TRANSCRIPT

Cue™ creates an automatic transcript of your meeting. Its complex algorithms discern when different speakers are speaking and calculates dates and dollar values.

#### AUTO TAG

While Cue™ transcribes, it distinguishes common topics frequently addressed in conversation and tags your meeting summaries for easy search.

#### AUDIO & VIDEO RECORDING

Retain audio (MP3) and/or 1080p video (MP4) records of your meeting, available for download or playback.

#### MEETING SUMMARY

A searchable record is automatically compiled after every meeting that summarizes attendees, chat logs, time stamps, documents, recordings, and transcripts.

#### SMART SEARCH

Search keywords using Callbridge's built in search tool for meeting results matching content from transcriptions, chat messages, filenames, meeting contacts, and more.

# BESPOKE MEETING ENVIRONMENTS

Expand the visibility of your brand to clients, vendors and internal teams with end-to-end personalization of your meeting environment. Your business is unique, and your meeting environment should be its reflection.

#### THEMES

Select a preferred UI theme to match your brand from a set of professional designs that includes colors, styles, and renders.

#### AUDIO SIGNATURES

Welcome guests to your meeting with studio-recorded custom audio signature.

#### VISUAL BRANDING

Personalize your virtual meeting environment with your logo and brand colors.

#### COMPANY SUB-DOMAIN

Host your online meetings on a domain your guests will recognize.

## ABSOLUTE AVAILABILITY

Host and join meetings from any device, anywhere, including physical meeting room integration.

### HD VIDEO

Enrich your communication with an immersive, 1080p video conferencing technology that is second only to meeting in person.

### QUALITY DIAL-INS

Every account is provided with an array of premium dial-in numbers, including a professional set of toll-free (800) numbers.

### BROWSER ACCESS

Access online meetings directly from a web browser. No downloads or complicated set-up for anyone.

### MOBILE APPLICATIONS

Access the full array of Callbridge features directly from your smartphone.

### DESKTOP APPLICATION

A lightweight download for guests who elect to join online without relying on browser support.

### MEETING ROOM INTEGRATION

Connect with H.323/SIP systems for end-to-end Callbridge conferencing.

## LIVE VIDEO STREAMING

Easily stream your online meeting to Youtube with just the click of a button.

- Hosts pre-program their YouTube Live streaming key into their account settings
- YouTube live streaming is available at any time just by selecting streaming from the drop-down during the conference.
- Any conference that is streamed is also recorded
- Live stream URL displays when a meeting room is at capacity

## SERIOUS SECURITY

Using cutting-edge virtual security measures like 128b-encryption, digital watermarking and more, Callbridge invites you to caucus without fear of intrusion.

### MEETING LOCK

Prevent unwanted participants from invading by locking the meeting and requiring additional joiners to ask permission.

### SECURITY CODE

Protect your discussions with an additional privacy layer of access permission when entering a conference.

### ONE-TIME ACCESS CODE

Ensure each call is unique and private with a one-time access code, validated for the duration of a specified, scheduled conference call.

## ADMINISTRATION

Manage everything in one place, update, add and remove hosts, see usage and collect reporting and all accounts have unified billing.

### MANAGE HOSTS

Add and remove hosts, edit host information and designate account level administrative permissions.

### USAGE REPORTING

View and export reports, invoices, transaction history, meeting summaries, call usage and records.

### UNIFIED BILLING

Access all company billing in one place. One invoice and one billing transaction for all registered hosts.
